If you have Mac OSX 10.15 Catalina or later on your Mac computer, when you launch the "Install FlightTest5" installer, you may receive a message like this:

?

"Install FlightTest5 ATP" can't be opened because Apple cannot check it for malicious software.

This software needs to be updated. Contact the developer for more information.

Safari downloaded this file today at 4:15 PM from **shepair.com**.

Show in Finder

OK

Just click 'OK'.

Don't worry, there's no issue with your computer or the software; the Mac OS is just looking for a 'Notarized' application in addition to our digital Apple signature. Just click 'OK'.

1 of 25 selected, 152.35 GB available

Red

Scroll thru the files in your Downloads folder and you will find the "Install FlightTest5" file you just downloaded (the file name can vary slightly). Hold down the "control" key on your keyboard and <u>click once</u> on the Install file.
